

IJ-70

DIGITAL FRANKING MACHINE

The Neopost IJ-70 expands your mailing capabilities with its extensive list of time and cost saving features.

- Envelope processing speeds of up to 150 letters per minute
- Differential weighing option automatically calculates postage
- Track expenditures for up to 200 departments
- Interface with a PC to export mailing data and reports

POSTAL EXPENDITURES MANAGEMENT AT HAND

The Neopost IJ-70 can connect directly to a PC, exporting accounting data and reports for advanced cost tracking and analysis using Neopost's postage accounting and management software.

CREDIFON®. THE FAST, SIMPLE POSTAGE RE-CREDITING SYSTEM.

Many re-crediting systems are slow and complicated, often requiring long calls. The IJ-70 helps you avoid all that. Neopost's Credifon® system refills your machine with postage in just a few key strokes, getting you back to business in seconds – 24 hours a day, 365 days a year. Just dial the number, punch in your pin and key in the value. It couldn't be simpler!

Credifon® remote recrediting is operated by Neopost over a premium rate phone line charged at £1.50 per minute including VAT [£1.28 excluding VAT]. Calls should last no more than 1 minute. You'll receive full and accurate account statements for your postage charges.

PRICING IN PROPORTION

All our new machines have been designed with Pricing in Proportion (Royal Mail's new tariff where mail is priced according to both its size and weight) in mind, and are ideally suited to both the professional mailroom and office environment.

WE VALUE YOUR MAIL

IJ-70

THE VERSATILE SOLUTION FOR OFFICES AND BUSY MAILROOMS

The Neopost IJ-70 is an advanced, automatic mail processing system that combines modular flexibility with advanced performance to deliver a comprehensive mailing solution for your business. Its advanced functionality provides your mailroom with increased productivity and higher efficiency, handling even the most complex mailing jobs with ease and offering full packet and parcel versatility. And yet, it is extremely easy to use.

The IJ-70's advanced inkjet technology produces a crisp, clear frank and a clean, positive message about your business. Choose from a selection of customised promotional slogans, and create or adapt your own text messages in just seconds.

MAKE LIGHT WORK OF LONG RUNS

The IJ-70 has an automatic feeder that allows you to process up to 150 letters a minute. A sealer will automatically close gummed envelopes, and you can add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

THE SIMPLE SOLUTION TO ALL SIZED MAIL

The IJ-70 can interface with integrated weigh platforms to automatically calculate and apply correct postage. You can even weigh a selection of items using differential weighing, which calculates the postage for each piece removed from the platform. A built-in label dispenser produces self-adhesive franked strips for posting larger items.

BETTER COST CONTROL

Instead of carrying postage costs as an overhead, the IJ-70 lets you allocate them to cost centres, with capabilities for up to 200 departments. Accounting records can be printed onto franking labels or through an external printer.

A WIDE CHOICE OF WEIGHING PLATFORMS

With a choice of 3, 5, 10 or 30kg integrated weighing platforms, the IJ-70 is designed to fit every mailing profile. Neopost's dynamic scale checks the weight, length, width and thickness as letters pass to the machine, automatically and accurately adjusting the postal rate.

Large, easy to read LCD display with user friendly menus and operator prompts

The Neopost Autofeed can handle envelopes and flat packets up to 16mm thick, in either portrait or landscape

Automatic label dispenser stores and prints up to 70 labels, for swift and easy parcel post

The brush sealing system ensures a perfect envelope seal

Simple operation is aided by job memories which enable you to store regularly used settings, as well as automatic date change, eliminating postage waste

PROCESS UP TO 150 ENVELOPES PER MINUTE

FEED MAIL UP TO 16MM THICK

AUTOMATICALLY SEAL ENVELOPES AND APPLY EXACT POSTAGE

PROGRAM UP TO 10 JOBS INTO MEMORY FOR ONE-TOUCH ACTIVATION

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 200 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYSE AND MANAGE POSTAL EXPENDITURES

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the IJ-70's easy to read display and one-touch controls make operating easy. Long-lasting ink cartridges reduce cost-per-impresion and can be replaced in seconds. And new postal rates can easily be uploaded from digital memory cards when required.

UPGRADE TO MAILROOM CAPABILITIES

Linked to a folder inserter, the IJ-70 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It deals with your mail ten times faster than a staff member could, and can also be used for mailshots and other marketing activities.
